

# COILS

## Toroidal Coils

### APPLICATIONS :

Toroidal Coils designed to minimize and absorb noise , and they to be used in speed control equipment or in applications where noise intrusion is a factor : CPUs , Communications Equipment , Computer Monitors , Televisions , VCRs and other electronics components.

### FEATURES :

Manufactured to rigorous Quality control standards to ensure reliability and capability. Excellent absorption qualities.

EMI/PRF elimination. Compliant with the standards of FCC , CISPR , CDE , FTZ , and VCCT.
